

**Quality of vital statistics obtained from civil registration**

| <b>I. Basis of tabulation</b>                           | Live births | Deaths | Infant deaths | Late foetal deaths | Marriages | Divorces |
|---------------------------------------------------------|-------------|--------|---------------|--------------------|-----------|----------|
| Present basis of tabulation:                            |             |        |               |                    |           |          |
| - date of occurrence                                    | X           | X      | X             |                    | X         | X        |
| - date of registration                                  |             |        |               |                    |           |          |
| How long has the present basis of tabulation been used? |             |        |               |                    | 20        | 20       |

| <b>II. Estimated completeness of registration</b> | Live births     | Deaths          | Infant deaths   | Late foetal deaths | Marriages | Divorces |
|---------------------------------------------------|-----------------|-----------------|-----------------|--------------------|-----------|----------|
| 100 per cent                                      |                 |                 |                 |                    |           |          |
| 90 - 99 per cent                                  | X               |                 |                 |                    |           |          |
| 80 - 89 per cent                                  |                 |                 |                 |                    |           |          |
| 70 - 79 per cent                                  |                 | X               |                 |                    |           |          |
| 60 - 69 per cent                                  |                 |                 |                 |                    |           |          |
| 50 - 59 per cent                                  |                 |                 |                 |                    |           |          |
| Under 50 per cent                                 |                 |                 | X               |                    |           |          |
| Please specify:                                   |                 |                 |                 |                    |           |          |
| (a) Year(s) to which completeness estimate refers | 2007-2015       | 2007-2015       | 2014-2015       |                    | 2015      | 2015     |
| (b) Basis of completeness estimate                |                 |                 |                 |                    |           |          |
| -Demographic analysis                             |                 |                 |                 |                    |           |          |
| -Dual record check                                |                 |                 |                 |                    | X         | X        |
| -Questions in population census                   |                 |                 |                 |                    |           |          |
| -Questions in sample surveys                      |                 |                 |                 |                    |           |          |
| -Other (specify)                                  | Indirect method | Indirect method | Indirect method |                    |           |          |
| -No evaluation                                    |                 |                 |                 |                    |           |          |

Please include any reports describing completeness of registration and methods used in arriving at estimated completeness:

The indirect method of estimate was used to estimate birth and death data in the population register, the comparison method was selected (population projections based on census data)

**Quality of vital statistics obtained from other sources**

**Table 1.1 - Urban / rural definitions**

|                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|--------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Please state the definition used for urban area and the period of time it has been in use: | Urban: any locality whose population amounts to 10,000 persons or more. This applies to all governorates/districts centers regardless of their size. Besides, it refers to all localities whose populations vary from 4,000 to 9,999 persons provided they have, at least, four of the following elements: public electricity network, public water network, post office, health center with full time physician and school offering a general secondary education certificate.<br>Camps: It refers to any locality referred to as a refugee camp and administered by the United Nations Refugees and Work Agency in the Near East (U.N.R.W.A) |
| Please state the definition used for rural area and the period of time it has been in use: | Rural: Any locality whose population is less than 4,000 persons or whose population varies from 4,000 to 9,999 persons but lacking four of the aforementioned                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
